

10+ Years in Automation Testing
Skilled in Artificial Intelligence & Machine Learning

WORK EXPERIENCE

- 2021- Current** **TIAA GBS**
Associate Specialist
- ❑ Leading and mentoring QA team members, promoting skill development and collaboration.
 - ❑ Managing defect triage meetings, analyzing defect trends, and ensures timely resolution of critical issues.
 - ❑ Worked on classification model for participant contribution change.
 - ❑ Building tools and utility to be used across QA community.
- 2020-2021** **FIS**
Lead Engineer Testing
- ❑ Ensured service quality and integration of Alipay payment flows.
 - ❑ Developed and maintained microservices test cases and scripts using Java, RestAssured, Mutation Testing, PACT Testing, Wiremock and SpringBoot.
 - ❑ Enhanced CI/CD pipelines for reliable production releases.
 - ❑ Monitored and visualized logs with Splunk; set up performance benchmarks using JMeter; integrated OpsGenie for real-time alerting.
 - ❑ Collaborated with product managers to optimize payment method workflows.
- 2018-2020** **TIAA GBS**
Test Analyst
- ❑ Automated manual test cases for improved efficiency.
 - ❑ Managed and tracked test cases in JIRA.
 - ❑ Maintained test scripts and resolved execution issues.
 - ❑ Prepared weekly team status reports.
- 2017-2018** **Xavient Information Systems**
Software Test Engineer
- ❑ As part of the BPS project for Charter Communications, supporting their Spectrum brand's delivery of voice, internet, and video services to new and existing customers.
 - ❑ Automated manual test cases using Selenium within a Data Driven Framework to improve efficiency and consistency in quality assurance processes.
 - ❑ Maintained and updated test scripts, ensuring reliable and up-to-date automated testing for ongoing service provisioning and customer support.
- 2015-2017** **Congnizant Technology Solutions**
Software Test Engineer
- ❑ Contributed as a QA Manual and Automation Engineer on a beneficiary project focused on testing various flows for Lloyd's Insurance.
 - ❑ Creation of Test cases in ALM and doing execution.
 - ❑ Maintaining test automation framework creating test cases

Skills

- Java, Python
- Selenium, Cucumber, WebDriver
- Junit, PyTest
- RestAssured, HttpClient
- SpringBoot, WireMock
- Machine Learning
- Power BI
- Behavior Driven Development
- Test Driven Development
- PACT Testing, Mutation Test
- Jenkins, Maven, Gradle, GIT
- SDLC Agile
- JMeter, LambdaTest
- DominoLabs, AWS
- Splunk

Professional Certificate

- IBM Data Science Professional Certificate
- [PCEP-30-02] PCEP™ – Certified Entry-Level Python Programmer
- AWS Certified AI Practitioner certification (AIF-C01)
- Certified SAlFe 5 Agilist

Education

- Master of Computer Applications
Galgotias University (2014)
- Bachelor of Computer Applications
H.N.B Gharwal University (2011)
